Rechargeable (3pcs batteries) ABS Base 56pcs LED	With Car Charger ABS Base 80pcs LED	Wired ABS Base 80pcs LED	Wired AL Base 80pcs LED	With car charger AL Base 80pcs LED
---	---	--------------------------------	-------------------------------	--

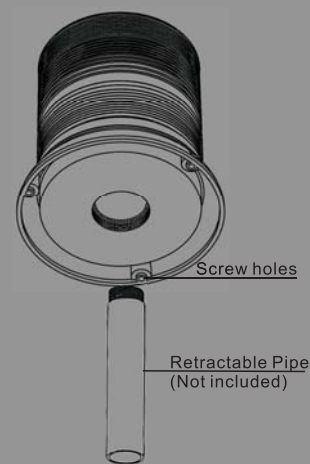

- Wide voltage(12v and 24v) is optional(Voltage of ordinary type is 12v or 24v)
- Better car charger--It's optional for rechargeable type only, with thicker cable & a switch on the charger that can be used to adjust beacon's working modes

- Different installation methods for ABS & AL (Aluminum alloy) bases

ABS Base - Magnet(optional) & screw holes at the base

AL Base - Retractable Pipe (Not included) & screw holes at the base

- Magnetic Rubber Suction Cup is optional
It's suitable for both ABS & AL bases(Except for the rechargeable type), being installed by using 3pcs screws.
With 3pcs strong Magnets inside & being protected by Rubber Suction Cup (the RSC is windproof & waterproof & can firmly adsorb on the iron surface), making sure that even driving speed is over 120yards, the beacon will not fly out of the car

Magnetic Rubber Suction Cup
