STARS PLASTIC SAFETY DEVICE

WWW.STARSPLASTIC.COM

ISO9001:2008 CE

2014 Version

SP(Stars Plastic Safety Device) is an 18 years old manufacturer for lighting application application products in safety industry, we design and produce most of products in our own plant.

SP's mission is to develop quality, innovative lighting application products that help people to make safety easier, So we want to produce every little light for safety.

OUR PRODUCTS

Now, We have more than 200 products conform to MUTCD , ASTM, AS/MZS and CE Standard. Our product range cover led traffic control baton, barricade lamp, led traffic sign, led beacon, solar road sufd.

Thanks to our members which with for more than 15 years, we can produce quality and pricing product to keep the competitive advantage.

MANUFACTURING

18 years, SP has been synonymous with innovation, quality and reliability. Internationally recognised as the leading independent Personal Protective Equipment manufacturer in China, SP is totally dedicated to manufacturing a broad range of equipment designed to give people the protection they need in their lives and workplace.

SP has total control of the safety manufacturing process , starting with sourcing and sorting materials from internationally recognised suppliers, to moulding and assembly, and finally packaging of the many products in the safety range. High ongoing investments in plant sites and latest machinery equipment, has allowed vertical integration of manufacturing - ensuring direct quality control of the complete programme.

OUR HONERS

- SP has passed ISO9001: 2008 quality management system
- SP had Obtain the patent for most of products and parts
- All of our traffic baton , warning light and solar traffic sign series had get the CE certificate
- Our factory has been ranked Class AA on the list of Zhejiang Industry and Commerce Enterprises who Follows Contract and Observes Credit.

Power switch:Red

Function switch:Black

Extremely thin! The Pro series new Solar traffic sign is the new revolution for the Solar Led traffic sign, it use new Aluminum material to make the thickness of the framework up to 1.5cm, its three times thinner than the normal Led traffic sign, it looks almost same as the traditional sign, but its with LED lighting, much safer than the traditional sign.

Extremely Strong! The Traditional Led traffic sign is hollow structure, very easy to broken during the transportation and installation, the new solar traffic sign is very strong, not easy to distortion.

Creatively all in one solar case! The traditional solar traffic sign is very hard to repair if have any problems. The Pro series traffic sign make the Control panel, Chip, Batteries, Solar Panel all together in one case, its very easy to service, repair the PCB, and replace the Batteries, only need to open the solar case.
